

The Indianapolis Radio Club Newsletter

Founded 1914

January 2019 Newsletter

Upcoming Meetings:

February 8: Classic Radios and collections.

March 8: Dave Arland's annual report from the Consumer Electronics Show.

April 12: MMDVM based multi-mode digital system from Southern Indiana

Highlights from the January Meeting:

Club President David Spoelstra, N9KT, called the meeting to order at 7:40. There were approximately 35 in attendance.

David gave an over-view of the club's financial situation. Basically, the club has been spending more than what has been coming in. David presented the following suggestions for how to make the club more solvent:

- No donuts or drinks furnished for meetings.
- Certificates only for the Hilltop contest, as opposed to plaques.
- No ongoing flower fund for funerals.
- Dues (\$20 per year, currently) will be due in January annually from this point forward.

Currently, there is just over \$2000 in the bank. We have been losing around \$800 - \$900 annually. Cutting the above items will put the club at break even.

The club's LLC status has been dropped, moving toward a Corporation so we can become a 501c3. Amazon Smile contributions will be set up once we get 501c3 status. David reiterated that we need folks to step up to help with the club.

David went over the upcoming meeting topics:

Feb.: Classic Radios and Collections.

Mar.: CES wrap up.

Apr.: MMDVM Souther Indiana system

May: Radio astronomy using DirecTV receiver and dish.

Jun: Auction

David also reminded that Field day is coming up in June. It will be held at the same location as last year.

Mark, W9MGB, announced that on January 26 the Satern group will be doing Winter Field Day. Lunch will be at 1:00, with operating starting at 2:00. This will be held at the Salvation Army EDS Training Facility, 4020 Georgetown Road.

Dave, K9RTT, announced that Hendricks County will be having their annual hamfest on Feb. 9 at the Hendricks County Fairgrounds.

Next, David introduced Charlie Dawes, AC9FN, for his talk about Mesh networks. Charlie said he has always been interested in comms of all kinds. He wanted to do VOIP in the field. He had three different networks running in the room, on battery power. Mesh Networks are "self learning" and "self healing". Running in Optimized Link State Routing. Basically, the 3 demo systems in the room were set up independently, and found each other. Charlie wanted to remove the need for central coordination. These systems are independent of each other. Broadband Ham net and ARDEN are the two main ham based systems. In order to make the systems ham based, the commercial equipment needs to be modified, voiding manufacturer warranties, and possibly destroying the equipment. Still bound by Part 97 rules, even though digital comms. For this reason, Charlie seldom connects these to the internet. Broad Band Ham Net standard gear is not updated, still using older gear. The ARDEN gear is more up to date.

After Charlie's interesting and informative talk, David asked for new hams.

John, WB0HTP, introduced his son Joe, KD9LSJ, and 9 year old grandson James, KD9LSK, who are both newly licensed.

The meeting was adjourned at 8:41 pm.

Ham Radio News:

APPLICATIONS IN LIMBO WITH GOVERNMENT SHUTDOWN

The FCC is not processing any Amateur Radio applications as the partial government shutdown continues. For radio amateurs, the shutdown means that while the Universal Licensing System (ULS) continues to accept applications for all valid purposes, the FCC will not review or act upon them until the funding stalemate is resolved. This includes Volunteer Examiner Coordinator test session batch files as well as modification, renewal, and vanity call sign applications filed by individual licensees.

CLASSES STARTING IN HENDRICKS COUNTY JAN. 30

The Hendricks County Amateur Radio Society will be hosting amateur radio license classes starting January 30, 2019, and ending with license testing on March 13, 2019.

This is for anyone who wishes to obtain a Technician class amateur radio license or upgrade to General class license only.

This class will be every Wednesday night from January 30 through March 13 at 7:00 to 9:00 pm.

Classes will be held at the Hendricks County Senior Services Center, 1201 Sycamore Ln., Danville, IN.

Registration will be at the January 30 session.

The Technician class will use the ARRL Tech Q & A book 7th Edition available from Amazon or ARRL for \$9.99 for Kindle, \$17.95 in Paperback versions.

The General class will use the ARRL General Q & A book 5th Edition available from Amazon or ARRL at the same prices as Technician book. The current General question pool will be effective through June 30, 2019; starting July 1 there will be a new set of questions in the General pool.

ARRL LoTW TOPS 1 BILLION QSOs

As of December 19, more than 1 billion contact records have been entered into ARRL's Logbook of The World (LoTW) system. And, while 1 billion QSO records represents a significant milestone, a more important statistic may be the nearly 187 million contacts confirmed via LoTW over its 15-year history.

LoTW debuted in 2003 after a lot of behind-the-scenes planning and development. Initially LoTW got off to a slow start. While user numbers gradually grew to about 5,000, a lot of hams didn't fully understand what LoTW was or how it worked, and opening an account could be cumbersome.

Signals from the Past:

From the January, 1960 *Amachewer*:

LOOKING BACK ON 1959

....The Hobby Show which required untold hours for building the props, the set up time, plus the hours spent by members in the booth as the IRC host to the public, was a big

success. We had over 150 Ham visitors, plus many other interested people visited us, including Santa Claus himself.

Upcoming Area Radio Events:

- February 9, 2019: Hendricks County Hamfest 2019. Go to <http://hcars.org/hamfest> for more info.
- April 6, 2019: 36th Annual Columbus Hamfest at Bartholomew County 4-H Fairgrounds. Go to <http://carcnet.net> for more info.
- May 17 - 19, 2019: Hamvention 2019 at Greene County Fairgrounds and Expo Center, Xenia, OH. Go to <https://hamvention.org/> for more info.

2019 Officers:

- President: David Spoelstra, N9KT – davids@mediamachine.com
- Vice Pres.: Dave Miller, K9RTT - dmiller@ivytech.edu
